2. Basis of Preparation and Statement of Compliance

Basis of Preparation

The unaudited consolidated financial statements of the Company have been prepared on a historical cost basis, except for available-for-sale (AFS) financial assets which have been measured at fair value. The consolidated financial statements are presented in Philippine Peso (₱), which is the Company's functional currency. Amounts are rounded off to the nearest Philippine Peso except when otherwise indicated.

Statement of Compliance

The accompanying unaudited consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Basis of Consolidation

The unaudited consolidated financial statements include the accounts of the Parent Company and its subsidiaries. Subsidiaries are all entities over which the Company has control. Subsidiaries are fully consolidated from the date of acquisition or incorporation, being the date on which the Parent Company obtains control, and continue to be consolidated until the date that such control ceases. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the statement of comprehensive income from the date the Company gains control until the date the Company ceases to control the subsidiary. The financial statements of the subsidiaries are prepared for the same reporting period as the Parent company, using consistent accounting policies. When necessary, adjustments are made to the consolidated financial statements of subsidiaries to bring their accounting policies in line with the Parent Company's accounting policies.

All intra-group balances, transactions and unrealized gains and losses resulting from intra-group transactions are eliminated in full.

Assessment of Control

The Company controls an investee if and only if the Company has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

When the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights assessing from other contractual arrangements
- The Company's voting rights and potential voting rights.

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Noncontrolling interests (NCI) pertain to the equity in a subsidiary not attributable, directly or indirectly to the Parent Company. NCI represent the portion of profit or loss and the net assets not held by the Company and are presented separately in the consolidated statements of income and consolidated statement of comprehensive income and within equity in the consolidated statement of financial position and consolidated statement of changes in equity.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the NCI, even if it results in the NCI having a deficit balance.

Acquisitions of NCI are accounted for using the acquisition method, whereby the Company considers the acquisition of NCI as an equity transaction. Any premium or discount on subsequent purchases from NCI shareholders is recognized directly in equity and attributed to the owners of the parent.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an acquisition. If the Company loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any noncontrolling interests
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit and loss
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, an appropriate as would be required if the Company had directly disposed of the related assets and liabilities

As of September 30, 2016 and December 31, 2015, NCI pertains to 44% and 5% ownership of KPMIRP and KPML, respectively in GRDC.

The financial information of GRDC and its wholly-owned subsidiary, GMRI is provided below. This information is based on amounts before inter-company elimination.

On June 22, 2011 and June 19, 2013, the BOD and the stockholders of KPCI and GVI, respectively, approved and ratified the dissolution of KPCI and GVI and the amendment of the Articles of Incorporation to shorten their corporate term up to and only until June 30, 2011 and June 30, 2013, respectively. KPCI filed a notice of dissolution with the SEC and the BIR on July 25, 2011 and September 14, 2011, respectively. In May 2015, GVI received its tax clearance and in November 2015, GVI granted dissolution by SEC. GVI still has an investment pending dissolution hence the Company's investment in GVI is presented.

The management assessed whether or not the Company has control over GVI due to the Parent Company's higher beneficial interest on dividends of GVI as compared to other shareholders. The Parent Company has no dominant influence over GVI's significant decisions and operations since majority of the Board of Directors of GVI are representatives of the other shareholders and not of the Parent Company. The management assessed that the Company has no control over GVI and thus will continue to account for GVI as an associate.

19. Financial Risk Management Objectives and Policies

The Company's principal financial assets and liabilities comprise of cash and cash equivalents, loans receivables, and AFS financial assets. The main purpose of these financial instruments is to raise finances for the Company's operations. The Company has various other financial assets and liabilities such as lease receivables and trade payables, which arise directly from its operations.

The main risk arising from the Company's consolidated financial statements are credit risk, liquidity risk, interest rate risk and equity price risk. The BOD reviews and approves the policies for managing each of these risks which are summarized below:

Credit Risk

Credit risk pertains to the risk that a party to financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company transacts mostly with related parties, thus, there is no requirement for collateral. Receivables are monitored on an ongoing basis with the result that the Company's exposure to bad debts is not significant. Significant concentration of credit risk as of September 30, 2016 pertains to loan receivable from a related company amounting to P221.0 million, which comprise 64% of the Company's loan and receivables.

The table below shows the maximum exposure to credit risk of the financial assets of the Company:

	Unaudited September 30 2016	Audited December 31 2015
<i>Loans and Receivables</i>		
Cash and cash equivalents *	P122,303,631	P55,128,375
Receivables		
Loan receivable from related party	221,000,000	287,500,000
Current portion of lease receivables**	1,193,398	1,188,905
Interest receivable	661,258	822,801
Due from related party	20,915	34,056
	P345,179,202	P344,674,137

*Excluding cash on hand

**Noncurrent portion of lease receivables arises from the straight-line recognition of rental income

Credit Quality

The Company expects the current portion of the lease receivables to be realized within three months from end of the reporting period. The amounts due from related parties are all collectible and of good credit quality. The cash and cash equivalents of the Company from a local bank with good financial standing is considered of good quality.

High grade assets are considered as having very low risk and can easily be converted to cash. These assets are considered for counterparties that possess strong to very strong capacity to meet their obligations.

Liquidity Risk

Liquidity is the risk that the entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, and long-term loans. The Company also monitors its risk to shortage of funds through monthly evaluation of the projected and actual cash flow information.

Interest Rate Risk

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of the changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term loan receivable with interest rate repriced semi-annually. Since the Company's long-term loan was granted to a related party, there is no requirement for collateral or guaranty. (Note 14).

Equity Price Risk

Equity price risk is the risk that the fair values of the equities will decrease resulting from changes in the levels of equity indices and the value of the individual stocks. The Company's price risk exposure relates to its quoted AFS financial assets where values will fluctuate as a result of changes in market prices. Such quoted AFS financial asset is subject to price risk due to changes in market values arising from factors specific to the instruments or its issuer or factors affecting all instruments traded in the market.

Capital Management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Company manages its capital structure and makes adjustment to it, in light of changes in economic conditions.

The Company monitors capital using a debt to equity ratio, which is the total liabilities divided by total equity. Total liabilities include current and noncurrent liabilities. Equity comprises all components of equity.

The Company's objective is to ensure that there are no known events that may trigger direct or contingent financial obligation that is material to the Company, including default or acceleration of an obligation.

The debt to equity ratios as of September 30, 2016 and December 31, 2015 are as follows:

	Unaudited September 30 2016	Audited December 31 2015
Total liabilities	P8,288,605	P7,358,360
Total equity	1,021,408,917	1,018,807,606
Debt to equity ratio	0.008:1	0.007:1

The Company is not subject to any externally imposed capital requirements.

Fair Values

Due to the short-term nature of the Company's financial instruments, the fair values approximate their carrying amounts as of September 30, 2016 and December 31, 2015 except for the long-term loan receivable with carrying amount of P150.0 million and fair value of P158.3 million and P187.5 million and fair value of P197.9 million for the periods ending September 30, 2016 and December 31, 2015, respectively.

AFS Financial Assets

The fair value of quoted AFS financial instrument is determined by reference to quoted market bid price at the close of business at the end of the reporting dates since this is actively traded in organized financial markets. Unquoted AFS financial instruments are carried at cost, less any allowance for impairment loss.

Fair Value Hierarchy

As of September 30, 2016 and December 31, 2015, the Company classifies its quoted AFS financial asset amounting to P18.0 million and P15.8 million, respectively, under Level 1 of the fair value hierarchy. During the reporting periods ending September 30, 2016 and December 31, 2015, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurement.

21. Other Matters

In September 2003, the Parent Company filed a complaint against the PNOC for specific performance with the Regional Trial Court of Batangas City for the enforcement of the contract relating to the option to purchase a parcel of land in Batangas. A judgment was rendered in January 2006 in favor of the Parent Company ordering PNOC to accept the payment of P4.1 million as full and complete payment of the purchase price, and to execute a Deed of Absolute Sale in favor of the Parent Company. PNOC, however, filed an appeal with the Court of Appeals (CA) in the same year. The CA dismissed PNOC's appeal in December 2011.

In July 2007, the Company and PNOC signed a compromise agreement where in both parties agreed to increase the price to P6.1 million. The compromise agreement is pending approval by the Office of the Solicitor General as of this period. In July 2012, PNOC filed with the Supreme Court (SC) a petition for review on certiorari of the decision of the CA. On November 7, 2013, the Parent Company filed a Motion to Resolve with the SC to ask for an early resolution and issue an order dismissing the petition. The case is still pending with the SC as of this period.

The Parent Company deposited P4.1 million with the Court which is presented under "Other noncurrent assets" account in the consolidated statements of financial position. The said piece of land is the subject of a lease agreement between the Parent Company and KPMI. (see Note 14)

Given the length of time that had lapsed, it is unlikely that the Compromise Agreement will be approved.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Results of Operations

The Company recorded a net income of ₱16.1 million for the nine-month ended September 30, 2016 as against ₱20.3 million in same period last year. The 21% decrease was mainly due to lower equity in net earnings of associates and partially offset by increase in rental income, interest income, management fees and lower operating expenses.

Rental revenue earned for the period ending September 30, 2016 amounted to ₱15.2 million, slightly higher by 4% as against same period last year of ₱14.7 million. This was mainly due to increase in rental rates.

The Company earned interest income this period of ₱8.0 million, mainly from loans receivable granted to a related company as against ₱7.1 million as of September 30, 2015.

The Company recognized equity in net earnings of associates of ₱8.2 million this period, or 29% lower as against same period last year of ₱11.5 million. This was mainly due to lower revenue earned by CLI arising from lower business activities.

Management fees charged to-related parties increased from ₱0.9 million as of September 30, 2015 to ₱1.1 million as of September 30, 2016.

Operating expenses of ₱13.5 million this period was slightly lower as against ₱13.7 million last September 30, 2015. This was brought mainly by lower provision for impairment losses, depreciation, membership dues & subscriptions. This was partially offset by higher salaries and benefits, taxes and licenses, professional fees, transportation and travel expenses, utilities and others.

The Company generated other income of ₱0.3 million this period as against last year same period of ₱3.1 million. The decrease of ₱2.8 million came from recovery of provision of impairment losses of ₱1.9 million, commission from joint venture agreement of ₱0.3 million and others of ₱0.6 million last year.

The Company earned fair value gain on AFS financial assets this period of ₱2.2 million as against nil in same period last year.

Financial Condition

The cash position of the Company as of September 30, 2016 amounted ₱122.3 million higher by ₱67.2 million as against ₱55.1 million as of December 31, 2015. The increase was brought by collection of ₱119.8 million from short-term and long-term loan receivables, ₱6.1 million dividends from CLI, ₱8.2 million interests from loans and bank deposits and net cash from operating activities of ₱2.2 million. This was partially offset by granting of short-term loans of ₱53.3 million to related party, payment of dividends to noncontrolling interest of ₱9.7 million and dividends to shareholders of ₱6.0 million.

Current receivables net of allowance amounted to ₱122.9 million and ₱152.0 million as of September 30, 2016 and December 31, 2015, respectively. The decrease in receivable was brought mainly by collection of short-term and long-term loans amounting to ₱119.8 million which was partially offset by granting of short-term loans of ₱53.3 million.

Other current assets as of this period decreased to ₱0.6 million as against ₱1.0 million as of December 31, 2015. Decrease was due to higher allowance for impairment on tax receivables by ₱0.6 million offset by higher prepayments and others by ₱0.2 million.

AFS financial assets as of September 30, 2016 amounted to ₱18.0 million as compared to December 31, 2015 of ₱15.8 million due to increase in market price.

Investments in associates increased from ₱416.0 million as of December 31, 2015 to ₱418.0 million as of September 30, 2016. The increase of ₱2.0 million was due mainly to the recognition of equity in net earnings of associate of ₱8.2 million offset by dividends received from same associate of ₱6.1 million.

Decrease in investment properties and property and equipment from ₱209.9 million as of December 31, 2015 to ₱209.7 million this period was due to depreciation partially offset by acquisition of office equipment.

Total liabilities gradually increased from ₱7.4 million as of December 31, 2015 to ₱8.3 million as of September 30, 2016 mainly due to higher accruals, advance rentals and deposits.

The equity attributable to equity holders of the Parent Company as of September 30, 2016 amounted to ₱586.8 million as against last December 31, 2015 of ₱582.4 million. This was due to net income attributable to Parent Company of ₱8.2 million and unrealized gain on available for sale financial assets of ₱2.2 million. This was partially offset by payment of dividend to shareholders last July 2016 of ₱6.0 million.

Noncontrolling interests as of September 30, 2016 amounted to ₱434.6 million as against last December 31, 2015 of ₱436.4 million. The decrease was due to the net effect of net income attributable to the noncontrolling interests of ₱7.9 million offset by the ₱9.7 million dividend payments.

The book value per share attributable to equity holders of the parent (equity attributable to equity holders of the parent divided by common shares outstanding) at ₱9.72 as of September 30, 2016 higher than in December 31, 2015 at ₱9.65 per share.
